Introduction

The Bachelor of Computer Applications (BCA) Programme through online mode is a 3-year undergraduate degree programme that focuses on knowledge of the basics of computer application and software development. A BCA degree is considered to be at par with a B. Tech / BE degree in Computer Science or Information Technology. The degree helps interested students in setting up a sound academic base for an advanced career in Computer Applications. Its aim and scope is very focused in its approach to preparing a student for higher education as well as for competitive exams. It also provides a sound platform to the students with the requisite background to proceed with confidence for higher studies in the form of MCA, M.Sc. (IT) etc. Increasing numbers of students have become interested in BCA program, due to availability of jobs in government sector (through competitive exams) and making careers in higher education.

Programme's Mission and Objectives

Mission:

- To cater and ensure excellent theoretical and practical training through teaching, counseling, and mentoring with a view to achieve professional and academic excellence.
- To connect with industry and incorporating knowledge for research enhancement.
- To generate, disseminate and preserve knowledge for the benefit and betterment of society.

Objectives:

- To educate and train individuals to be well prepared for higher education.
- To be able to engage independent and life-long learning.
- To develop professionally that ensures existence in the competitive world.

Instructional Design

The program is divided into six semesters and minimum credit requirement is 120 to get BCA degree through OL mode from Mangalayatan University. Minimum time period for acquiring BCA degree will be three years and maximum time (extended) period is six years.
