AND MORE

TRANSFORMING DREAMS INTO TECH CAREERS

Our Online Bachelor of Computer Applications (BCA) program is designed to equip students with the knowledge and skills needed to excel in the field of computing. With a focus on practical learning and real-world applications, our program aims to:

Provide a strong foundation in computer science principles and applications

Prepare students for careers in IT management and technology-related roles

Foster problem-solving and critical thinking abilities

Develop proficiency in programming languages and software development

Impart knowledge of database management and information systems

Instill an understanding of web development and internet technologies

CHOOSE YOUR PATH, SHAPE YOUR FUTURE WITH INDUSTRY-READY SPECIALIZATIONS

Artificial Intelligence and Machine Learning (AIML)

Dive into the cutting-edge world of AI and ML, exploring neural networks, deep learning, and natural language processing.

Cybersecurity

Defend against cyber threats and protect digital assets with hands-on training in ethical hacking, incident response, and network security.

Full-Stack Development

Learn full stack web dev: HTML/CSS/JS for front-end & Node.js/Express for back-end. Build secure, dynamic web apps & excel in software development.

Data Science

Harness the power of data with expertise in data analysis, predictive modeling, and big data technologies for informed decision-making.

Unique Pay-After-Placement Option

We understand the financial commitment involved in pursuing higher education. That's why we're proud to offer a unique Pay-After-Placement option that allows students to defer a portion of their tuition fees until after they secure a job in their field of study.

HOW IT WORKS ?

When chosen, the Pay-After-Placement option allows students to pay 33% of the tuition fees based on the program outcome, while paying the remaining amount during the course

ONLINE BCA FEE STRUCTURE
